From the Clubhouse

From the Desk of Jesse K. Thorpe, General Manager

Dear Members,

Well the weather has made golf an endurance sport this summer- very warm and very wet! The only redemption in all this weather is that the Bermuda Grass has thrived- because what we find uncomfortable, provides optimal conditions for growth. I have had many members comment on the wonderful conditions on the courses and on the croquet courts. Of course, a good growing season provides a better base for the next cooler season (whenever that might happen).

I thought it would be interesting to share another example of Club involvement in our community. As you might or might not be aware, the Club has partnered with "Habitat for Humanity" in Flagler County using Community Contribution Tax Credits (CCTCP). In essence, under a state approved program, we can direct a portion of our state sales tax collected to Habitat for the construction of homes. We have been doing this for more than 8 years. Working with Habitat we complete an application and receive tax credits, and we fund the construction. In Flagler County, Habitat has just completed its 111th home, with 20 of those funded by credits through Hammock Dunes Club (and three of these have been for Hammock Dunes related staff). In fact, we have applied for credits to build two more homes, and are presently waiting for approval from the state. If you aren't familiar with how Habitat works, I encourage you to check out information on their website, or even talk with Club Members Jack Leckie and Willy Jones who serve on Habitat's Board in Flagler County.

As we get deeper into the summer, we can hope for two things: 1) a break in the weather and 2) no hurricanes in our area. Meanwhile we will be here and getting things ready for the next season!

See you around the Club!

Jesse K. Thorpe CCM GM/COO

FROM THE KITCHEN

When it comes to eating healthy, the best food for the cause is quinoa. Quinoa is a grain crop primarily grown for its edible seeds. It is closely related to spinach and beetroots. It is indigenous to Peru, Ecuador, Colombia, and Bolivia but now has a varietal produced in the Northern Hemisphere.

During cultivation the outer, bitter tasting saponins have a beneficial effect, as it is unpopular with birds. After harvest the seeds must be processed to remove the unpalatable saponins. The seeds are in general cooked the same way as rice (or short grain Arborio rice - risotto style) and can be used in a wide range of dishes. Quinoa is considered a super food due to its high protein content and the fact that it contains all 9 essential amino acids. Quinoa is a great source of fiber, is gluten free and is easily digested. At the Club, we use the varietals of: white, red, and black quinoa in our blended rice and vegetarian dishes.

Quinoa can be used as a base for many salads as well. Cooking quinoa is easy, 1 part quinoa to 2 parts liquid (by volume). Bring both to a boil, turn down to a simmer, cover and cook for 15 to 20 minutes (until the liquid is absorbed and quinoa is tender). Spread into a mixing bowl or casserole dish to cool. Once cooled, combine

with ingredients to your liking: "avocado-red onion-cherry tomato with a balsamic-dijon dressing" or a "black bean-cilantro-chili pepper-lime vinaigrette" combination are just a couple examples...

HDLGA News...18 Holers

"In Golf, as in Life, it is the follow through that makes the difference!"-Anonymous

It's August already!! On the 14th -A King and 3 Queens will be held at the Links course. Deb Ignatuk does a great job running this event. It's such a fun day and we all know how our "kings" love playing from the red tees. Call the golf shop and sign up!

One must admit; with our daily afternoon "downpours", our Links and Creek courses are in great shape. With an 8:30 start time, Wednesday Ladies Day players are enjoying these spectacular conditions. The games are fun, so why not come out and join us for a great day of girlfriends and golf!

Did you know? There has been a lot of buzz, (no pun intended), regarding the use of Vicks® VapoRub™ as a bug repellent. Fact is, the ointment contains Camphor, Menthol and Eucalyptus oil which keeps the annoying insects away. Last week, while at the Creek, I applied Vicks® VapoRub™ to the inner top of my visor, the back of my neck and on my ears. I can honestly report; I had NO issues with mosquitoes or Gnats my entire round. If you (and your cart partner) don't mind the smell of Vicks, it really did work.

Friendly reminder: Don't forget to post your scores. You can do so at the Golf shop or your GHIN app. It's important for our club and for our handicaps. If you wait or forget to do so, remember to make sure the dates are correct. Playing a round unaccompanied (alone), playing a practice round or less than 7 holes, would be the only time you do NOT post your score. If you have any questions regarding the posting rules, call the golf shop and speak to one of our professional staff members.

I hope to see all the fabulous ladies of HDLGA on the course! Stay cool (& dry).

News from the Golf Shop..

We had a fantastic Florida Open. We had a great field and an exciting tournament. The Club received very positive media attention.

We would like to thank those of you that gave of your valuable time to volunteer for the event. You were instrumental in the success of the tournament. We would also like to thank the membership for allowing the use of the facilities for the event. I believe all would agree that the club looked fantastic.

It's time to sign up for two of the most important events of the season. The MGA Summer Shoot-Out will again be a two-man team competition and will be held on August 8 & 9. Play will begin with an 8:30 a.m. shotgun on both days. Buffet lunches are included both days following play.

The ladies' Three Queens and a King Tournament will be held on the 14th of August and will commence with a 9 a.m. shotgun start. All players (including the "Kings") will play from the red tees. Sign up today to ensure your place in the royal family.

As always, don't struggle with your game. All of our pros are willing and able to help you.

We hope to see you on the course soon. Thank you.

The Open Stance Forehand

If you watch top level tennis these days – juniors, college or pro – you will rarely see players using the classic, old-school footwork when hitting their forehands (turn sideways and step toward the ball with the left foot [right handers]). The overwhelming majority of forehands hit are “open stance, where the shoulders and hips are turned sideways, but the right footsteps sideways into the shot, not the left foot.

When hitting open stance, the shoulders and hips rotate and “open up” to face forward. Players will use the open stance when the ball is hit wide to their forehand, making them run; on high balls; on deep balls; or a combination of these 3 things. There just isn’t time to take a step with the left foot towards the ball – inevitably, the left footsteps sideways and the body gets in the way preventing hitting the ball in front of the body. Contact will always be cramped and behind the body.

Hitting open stance gets the body out of the way and allows a player to contact in front – and with the hips rotating while hitting, there can be tremendous power in the shot. Players will only step forward into the shot with the left foot if the ball coming to them is shorter, lower and right to them – something that doesn’t happen a whole lot in tennis.

Try the open stance forehand yourself – then you can hit Djokovic type winner forehands from anywhere on the court!! on be celebrating a lot more success on the court!

Opera at Hammock Dunes

August 15 ➤ from 4 - 6:45 p.m.

Verdi's Nabucco

Nabucco was an immediate success at its premiere at La Scala in 1842. Doubtless the audience, like Verdi, saw parallels between the plight of the Jews under King Nebuchadnezzar (Nabucco) and their own situation under Austrian rule. Director Arnaud Bernard makes this link explicit by staging his fascinating 2017 Arena di Verona Festival production as an opera within an opera: i.e., as a performance of Nabucco at La Scala during the 1848 Milanese uprising against the Austrians.

All are welcome. The program will begin promptly at 4 p.m. in the Boardroom, and there will be an intermission. Please remember to arrive early and enjoy a glass of wine or champagne before.

Presented by Jinny Crum-Jones and Ian Jones
(www.dunesopera.com)
in association with Barbara Arzonetti

As always, after the final curtain and applause quiets down, please consider staying for dinner. Call today for reservations: 445 0747.

News & Notes

Audubon Corner...

A few Sundays ago while exiting the club in the garden plot next to the Golf shop I found a baby gopher tortoise. How it got there is a mystery. Gopher tortoise's origins are 60 million years old. They are a keystone speciesthat is they support many different species as many as 400, a very important role in their home communities. Their burrows can be 50 feet long and they share.

They are classified as Vulnerable. The main threat to them is loss of habitat due to development and being poached for the pet trade.

You will be happy to know that I relocated our little tortoise to Clicker Beach where he should have a happy life.
